# FALL PLANTING LIST—1924

Library,

Dept. of Agr.,

Washington, D. C.

**BUXTON WHITE SEED CO.,** The Live Seed House **Elizabeth City, N. C.**

## Field Seeds for Fall Planting

Sow all your grain, such as Rye, Oats and Wheat in September and October; even November plantings do well. Clover and pasture crops such as Crimson Clover, Vetch, Burr Clover should be sown in September and through October. Don't put it off. Alfalfa, Red Clover, Alsike, Timothy, Red Top and other grasses do best when sown in the fall.

All prices are for immediate acceptance and subject to market changes, F. O. B. Elizabeth City. However, we will protect these prices as long as we are able to do so. If you order any seeds by parcel post be sure to include money for postage.

Our Annual Catalog will tell you how much to sow and when to sow. Get a copy; it's free to all customers.

# Hyacinths

READY IN OCTOBER

The Hyacinth is so well and favorably known that it is unnecessary to give any detailed description of its broad upright spike or truss thickly set with bell shaped flowers of beautiful wax-like texture. It succeeds well in either the house or garden, adorning both with varied colors and delicious fragrance of its showy flowers. Its culture is very simple, failure being almost impossible.

## TOP-SIZE EXHIBITION

Comparatively few bulbs of this quality come into this country. They are the very finest, extra large, solid "Mother Bulbs," and should not be confused with those often sold as "Exhibition Size," which the Hollanders consider a second size. To all who wish the finest blooms we recommend these exhibition bulbs.

Our list follows—each one is a gem—no poor or indifferent ones—all large bulbs:

**Gertrude.** Rosy pink, large compact spike. A first-class variety for forcing, and being of erect habit it is very useful for bedding.

**Lady Derby.** Vivid pink, fine spike of large waxy bells. Forces easily. One of the finest pink Hyacinths.

**La Victoire.** Brilliant red, large, well-shaped spike, splendid flower. Forces easily and early. An exhibition variety.

**L'Innocence.** Pure white, well formed spike. Early and excellent for forcing, also recommended for bedding.

**Grand Maitre.** Deep porcelain blue, broad, well formed spike. Recommended for forcing and bedding.

**Queen of the Blues.** Light blue with silvery appearance, large splendid flower. An exhibition variety of great merit. Excellent for forcing and bedding.

**Lord Balfour.** Purple lilac, large spike and bells. Forces early and easily.

**Yellow Hammer.** Pure golden yellow, fine broad spike. One of the best yellows for forcing and bedding.

Price of Top-Size Bulbs: 20c each; \$2.00 per doz.; \$15.00 per 100.

By Parcel Post, add 10c per doz., 50c per 100.

## FIRST SIZE

These bulbs are in every way strictly first class and will give perfect satisfaction for either forcing or bedding. This size is often sold as "Exhibition Bulbs," but is slightly smaller than the Exhibition or Top-Size listed above.

Varieties same as described above.

Price of First-Size Bulbs: 15c each; \$1.50 per doz.; \$10.00 per 100.

By Parcel Post, add 10c per doz., 50c per 100.

## BEDDING HYACINTHS BY COLOR

Our bedding Hyacinths are unexcelled for use where an effective display is wanted in the open air and are of such superior quality as to be entirely satisfactory to florists and others who use large quantities for forcing. They comprise the finest shades of color and must not be confused with cheap mixtures sometimes offered for outdoor planting.

Offered in the following separate colors:

Pure White	Bright Rose	Light Blue
Blush White	Deep Rose	Dark Blue
Light Pink	Purple	Yellow

Prices: 10c each; 90c per doz.; \$6.50 per 100.

By Parcel Post, add 10c per doz., 50c per 100.

## EARLY FRENCH ROMAN HYACINTHS

Roman Hyacinths excel all other varieties for forcing in the house, being among the most easily cultivated and most satisfactory of flowering bulbs. The White variety blooms earliest and should be forced slowly. The others require about two weeks longer in forcing and make a most graceful, fragrant and early flower for outdoor planting.

Offered in the following separate colors:

Pink	White	Blue
------	-------	------

Prices: 18c each; \$1.75 per doz.; \$14.00 per 100.

By Parcel Post, add 5c per doz., 25c per 100.

## IMPORTANT NOTE

The U. S. Government has decreed that Narcissi (Daffodils) may only be imported until next year. As a result, prices will, of course, again advance; may we therefore suggest that you order your Daffodils for future use NOW taking advantage of present advantageous prices.

# Tulips

READY IN OCTOBER

By Parcel Post, add 5c per dozen, 25c per 100.

The great variety of dazzling colors, in every conceivable combination, makes the Tulip the most popular of the spring-flowering bulbs. By planting bulbs of the different classes, a display of bloom may be had for several weeks, beginning first with the early-flowering section and ending with the Darwins.

## Single Early Tulips

The Single Early Tulip is one of the most attractive and popular spring-blooming flowers for garden borders and for bedding. Most of those named below are equally valuable for pot culture indoors.

<b>B. W. Quality Mixture.</b> Superior mixture from named varieties.....	—	.55	3.50

## Darwin Tulips

Darwin Tulips, known as "The Tulip Aristocrats," belong to the late-flowering class; they are distinct in style of growth, the large, brilliantly colored flowers being borne on long, straight, stout stems. For massing, bedding, or for border planting, the Darwins are unexcelled. They are also very desirable for pot culture, but should be forced slowly.

	Each.	Doz.	100.
<b>Baronne de la Tonnay.</b> Bright rose pink, light edge.....	.07	.60	4.00
<b>Bartigon.</b> Dazzling scarlet, strong, good forcer.....	.09	.85	6.25

## Narcissi or Daffodils

READY IN OCTOBER

By Parcel Post, add 10c per dozen, 50c per 100.

The graceful and charming Narcissus has been developed by its many enthusiasts until the sorts offered are almost without number. We offer the most popular varieties. Our stock is of the largest, selected "Mother Bulbs" ("double nose"), which are those having reached maturity and about to break up into smaller bulbs. These will send up several flower-stems, whereas the ordinary bulbs seldom produce more than one stalk. We would advise all those interested in Narcissi to plant heavily of them this year, bearing in mind that they will be barred from importation by quarantine after 1925.

## Crocuses

READY IN OCTOBER

By Parcel Post, add 5c per dozen, 20c per 100.

Among the earliest to bloom in the spring is this beautiful little flower, its funnel-shaped flowers borne erect from grass-like leaves. Most showy when planted in large beds, but very desirable effect is produced by setting crocuses here and there over the lawn. Crocuses are also easily flowered in the house during winter in pots of soil or shallow bowls of bulb fibre.

	Doz.	100.
<b>Albion Striped.</b> Purple, blue and white striped.....	.30	2.00
<b>Mont Blanc.</b> Pure white.....	.30	2.00

I was delighted with your Bulbs last year, and am looking forward with much pleasure to these.

MRS. HENRY F. LONG,  
 Statesville, N. C.

I just opened the box and want to say that the Bulbs are beautiful, so nice and fresh—the largest Daffodils I ever saw. I am sure they will be very fine in bloom. I thank you for taking so much pains in selecting and packing.

MRS. ROBERT BROCKETT,  
 High Point, N. C.

My bed of Bartigon Tulips was gorgeous this spring, admired by everybody who saw them. The Tulips were brilliant, very large and handsome on tall straight stems. I was naturally very greatly pleased.

MRS. C. C. DAWSON,  
 Cramerton, N. C.

## Iris, Fleur-de-Lis

Invaluable for the herbaceous border. On account of their hardiness and easy culture, and for their lavish wealth of blossoms that crown their numerous stems they are greatly prized. Ready in September.

**Dalmatica.** Lavender, very large and extra fine.

**Florentina Alba.** Pure white, faintly flushed blue, pleasing fragrance, early.

**Queen of May.** Rosy pink, tinted with violet, lovely shade.

Price: 20c each; \$2.00 per doz. Mixed, \$1.50 per doz. By Parcel Post, add 5c each, 25c per doz.

## Hardy Lilies

For color, fragrance, beauty and variety of form, nothing can equal these grand flowers. Whether grown in pots or grouped in the perennial border, where their hardiness makes them so desirable, they are always an object of beauty, and by proper selection furnish continuous bloom from early summer until fall. Ready in November.

# Fall Sown Lawns are Better

Nothing adds more to the external attractiveness of a home than a beautiful lawn, and this is by far the best season to make a lawn.

1. Make sure the ground is well drained; it is impossible to grow lawn grasses on wet, sour soil.

2. Plow or spade the ground a foot deep, at the same time working in an abundance of organic matter, preferably Wizard pulverized sheep manure. Too much humus cannot be added. If the soil is poor, or if subsoil was used to grade about the house, remove several inches and replace it with good, rich top soil.

3. Lime the ground to overcome acidity; practically all lawn soils are sour. Use hydrated lime at the rate of  $1\frac{1}{2}$  tons to the acre, or 10 lbs. to 100 square feet.

4. Harrow or rake the ground thoroughly and deep, so that it will be completely pulverized. The better the seed-bed is prepared, the better the grass will grow and last.

5. Sow B. W. Quality Mixed Lawn Grass, using 75 lbs. to the acre, or 1 lb. to 300 square feet, and lightly rake or harrow it in.

6. Roll or pack the lawn to firm the soil about the seeds. A fall-made lawn will not need cutting until spring.

We feel fully justified in stating that ours is the best Lawn Grass procurable at any price. It is better adapted to the different soils of the South, and stands the heat and drought of summer as well as severe cold better than the various mixtures so commonly offered. Nothing but the choicest, cleanest and heaviest seed go into it.
